

MEDIALOC

Your strategic partner in
media management

Hello, we are Medialoc: your strategic and knowledge partner for media management in the cultural sector. Medialoc helps exhibitors, sales agents, distributors, galleries, artists and filmmakers collect, store, manage and screen/project video and films.

From digital film logistics to streaming and projection, from strategy and concept to technical implementation and roll-out - we support and take care of every step of the way.

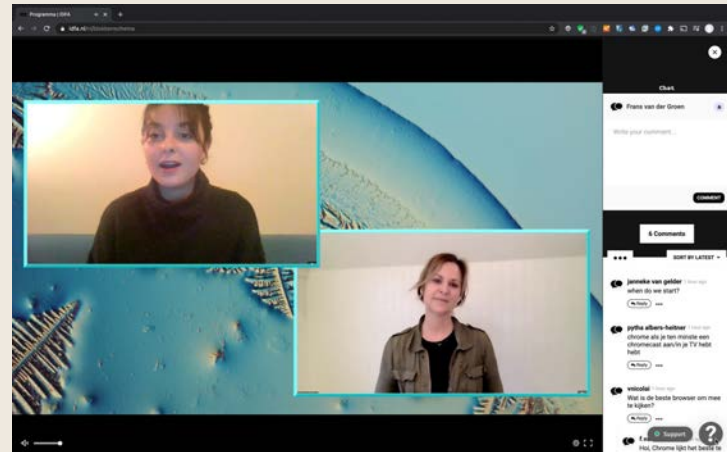

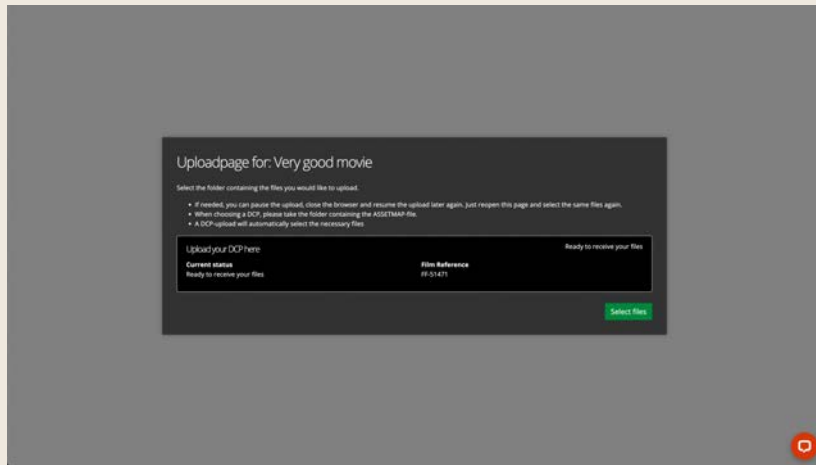

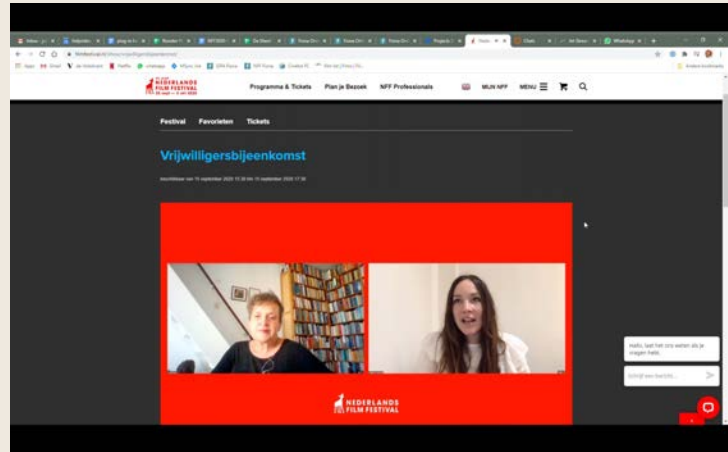

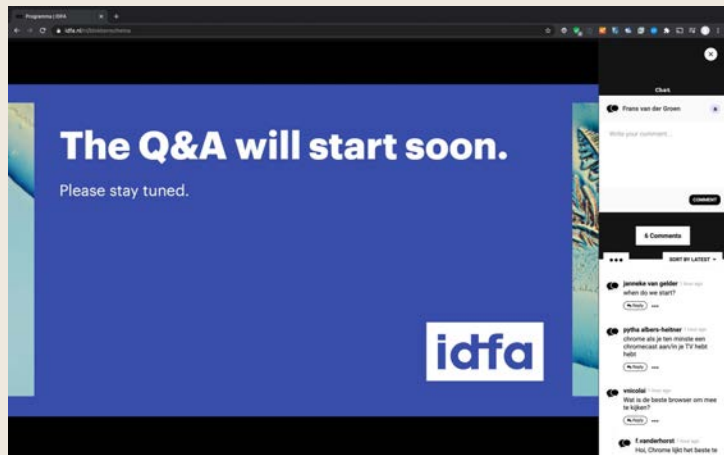

We provide services in the field of online and offline film and video with a clear focus on media management. Our services can be divided into 3 facets:

- **Digital logistics**
- **Storage, management and handling**
- **Playback and projection**

In these 3 facets, Medialoc offers the following services:

- **Transfer service (upload and download)**
- **File management**
- **Transcoding**
- **Storage and archiving**
- **Quality control**
- **Repair service**
- **MediaContainer**
- **OSP (offline player for streaming files)**
- **Analysis of usage and display**

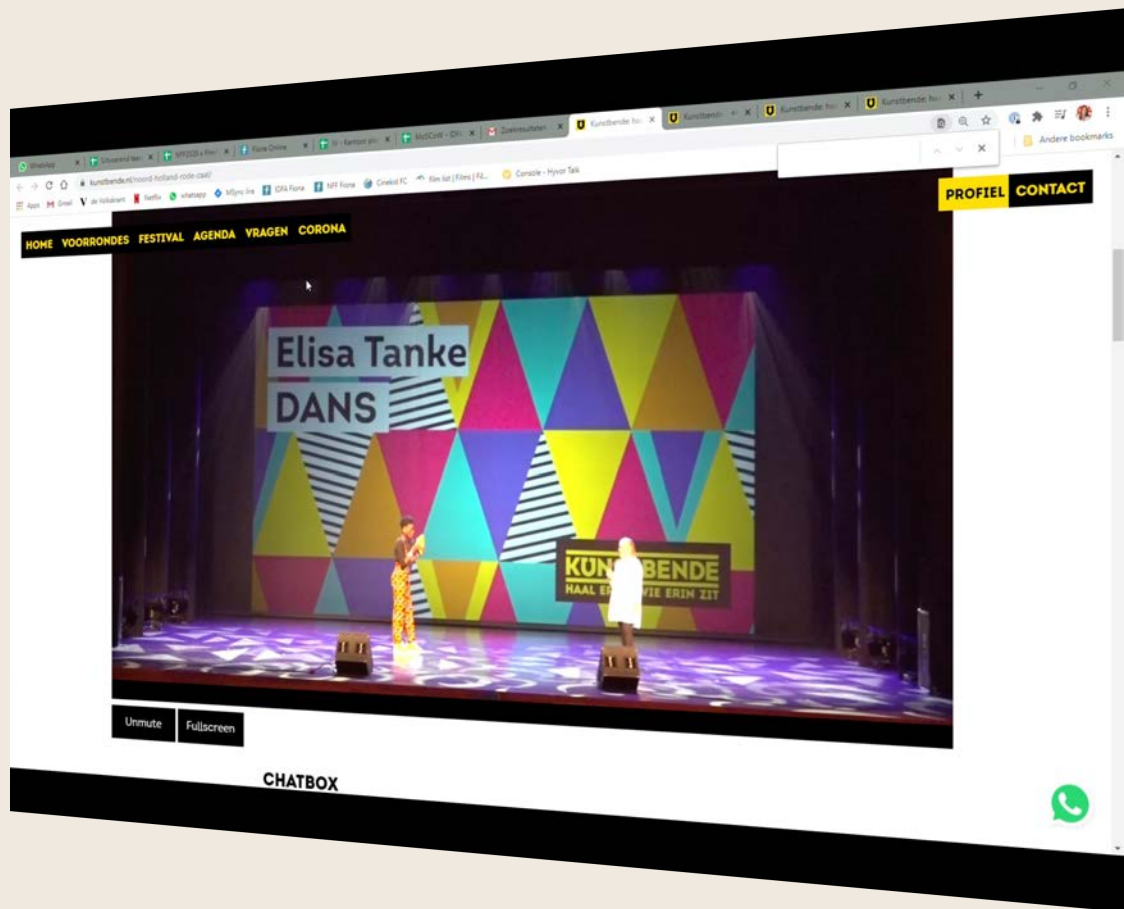

Medialoc guides its customers in terms of content and production and provides support for the entire process, from digital logistics to (on- and offline) projection. For this, we use our own software and automation solutions that we have had developed specifically for this purpose, but we link up just as easily with your existing solutions.

In 2017, we introduced Filmfetch, a tool for the digital logistics of films. A sustainable and efficient alternative to sending physical carriers. This tool was developed especially for (film) festivals and filmmakers.

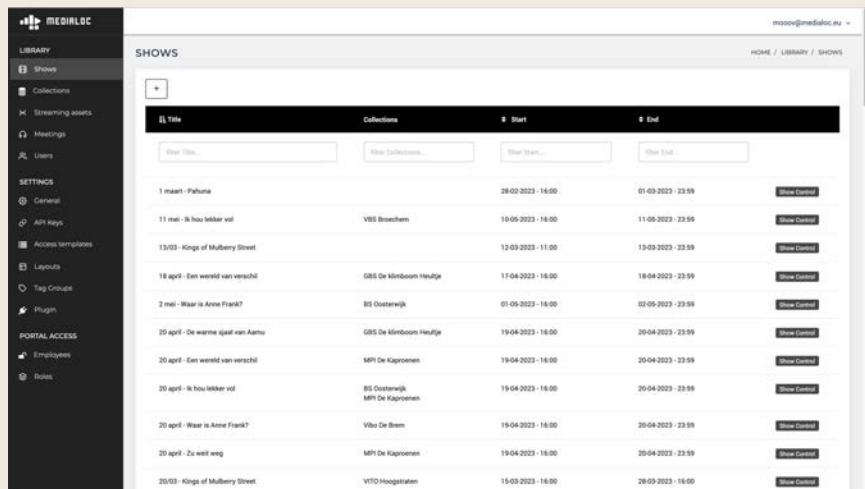

2020 meant an acceleration in development with the request from the 4 major film festivals in the Netherlands for a solution to allow the festivals to continue during the covid-pandemic. In consultation with the festivals and led by Medialoc, the MediaContainer was developed, an application that allows a festival or event to be brought online on its own website or platform.

In 2022, we added the ability to play streaming files offline, secured and encrypted. With this, we offer venues with an unstable internet connection and without a DCP player the possibility to show films in a safe and reliable way.

In 2023, we will go one step further with the introduction of the Medialoc Media Warehouse, combining and enriching our existing tooling and solutions into one central collection point that is always accessible and stating the status of all files at all times. One overview for the client in terms of media files and metadata, where files can easily be delivered to the places where they need to be shown and stored for the long term.

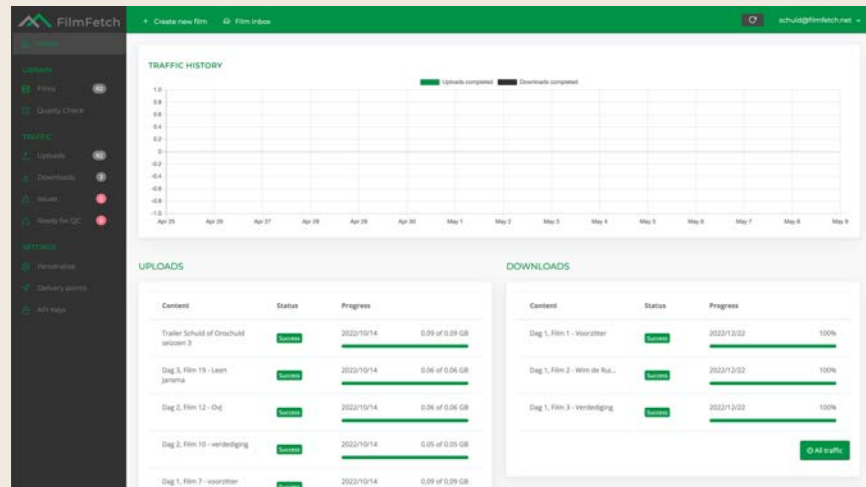

Dashboard MediaContainer and Filmfetch

The screenshot shows the MediaLoc dashboard with a sidebar on the left containing navigation options like LIBRARY, SHOWS, COLLECTIONS, and SETTINGS. The main area displays a table of shows with columns for Title, Collections, Start, and End.

Title	Collections	Start	End	Action
1 maart - Paluba		28-02-2023 - 18:00	01-03-2023 - 23:59	Show Control
11 mei - Ik hou lekker vol	VBS Broerham	10-05-2023 - 18:00	11-05-2023 - 23:59	Show Control
13/03 - Kings of Mulberry Street		12-03-2023 - 11:00	13-03-2023 - 23:59	Show Control
18 april - Een wereld van verschil	GBS De Kindeboom Heulje	17-04-2023 - 18:00	18-04-2023 - 23:59	Show Control
2 mei - Waar is Anne Frank?	BS Doetewijk	01-05-2023 - 18:00	02-05-2023 - 23:59	Show Control
20 april - De warme tijd van Aamu	GBS De Kindeboom Heulje	19-04-2023 - 18:00	20-04-2023 - 23:59	Show Control
20 april - Een wereld van verschil	MP1 De Kiprozen	19-04-2023 - 18:00	20-04-2023 - 23:59	Show Control
20 april - Ik hou lekker vol	BS Doetewijk MP1 De Kiprozen	19-04-2023 - 18:00	20-04-2023 - 23:59	Show Control
20 april - Waar is Anne Frank?	Vbs De Breen	19-04-2023 - 18:00	20-04-2023 - 23:59	Show Control
20 april - Zu wef weg	MP1 De Kiprozen	19-04-2023 - 18:00	20-04-2023 - 23:59	Show Control
20/03 - Kings of Mulberry Street	VTD Hoopgelanden	15-03-2023 - 18:00	28-03-2023 - 18:00	Show Control

The screenshot shows the FilmFetch dashboard with a sidebar on the left containing navigation options like LIBRARY, UPLOADS, DOWNLOADS, and SETTINGS. The main area displays a TRAFFIC HISTORY chart and two tables for UPLOADS and DOWNLOADS.

TRAFFIC HISTORY

The chart shows Uploads completed (green) and Downloads completed (black) over time from April 25 to May 9. The y-axis ranges from -1.0 to 1.2.

UPLOADS

Content	Status	Progress
Trailer Schuld of Oorloofd seizoen 3	Success	2023/10/14 0.09 of 0.09 GB
Dag 3, Film 13 - Leen Jansma	Success	2023/10/14 0.06 of 0.06 GB
Dag 2, Film 12 - Dje	Success	2023/10/14 0.06 of 0.06 GB
Dag 2, Film 10 - verdediging	Success	2023/10/14 0.09 of 0.09 GB
Dag 1, Film 7 - voorzitter	Success	2023/10/14 0.09 of 0.09 GB

Medialoc employs committed and dedicated people with great product knowledge. We have a clear focus on media management, offering solutions through smart automation and software. Our roots are in the festival and culture sector and we want to offer a solution that is accessible to everyone and can be used by everyone. This is why we enter into strategic linked partnerships to keep costs low and share experience and development.

Medialoc grew out of a partnership between Indyvideo, an independent AV consultant and project manager, and Marteco, a software developer with roots in developing web applications for the financial sector. Indyvideo provides services in film, video, automation and electronic media. Marteco works for a large number of banks and other companies in the financial sector. We keep an overview of the entire process and offer smart solutions for all your media management needs.

So, whatever your question or problem, at Medialoc we are ready to find and/or develop the solution for you. Feel free to contact us and find out how we can optimise your media management.
